I've been developing user interfaces since 2012 and have a deep passion for clean, scalable code and responsive design.

Experience

March 2020 - Present

Software Engineer (Front-End) // Orion Consultancy
Daily tasks includes developing new user-facing features with reusable code and libraries, ensuring the technical feasibility of UI/UX designs and assuring user inputs are validated before moving product to backend developers.

2015 - 2019

Senior Front-End Web Designer // T2 Web Pte Ltd
Managed a portfolio of various projects across multiple clients (Borneo Motors Singapore, BBC, DirectAsia Singapore...), including conceptualizing, developing and optimizing user experience for customer facing interfaces including websites, web applications and electronic communications. Collaborated with various front-end and back-end developers from project start to finish while consistently delivering projects on time and within budget.

2019 - 2020

Freelance Front-End Designer & Developer
Worked extensively with Sephora Digital SEA in managing their digital assets and as well as fulfiling stakeholder requirements for various companies such as SPH Holdings and DA Little Preschool.

Technical Skills

UI/UX · HTML · CSS · Javascript · Reactjs · Adobe Photoshop · Figma

Native/ bilingual proficiency in English and Mandarin.
